

Global Roadway Maintenance Inc

December 2005 Okanagan Field Report

Vol. 1 No. 2

Fall/Winter 2005

GRM ProActive Anti-Icing still THE BEST!

AntiIce© Dealer – For 10 years GRM Inc. has been utilizing the most successful service programs and the newest, most effective AntiIce© products for snow & ice control. Our services have proven extremely effective regardless of Mother Nature’s weather challenges.....

Dec 9 – 11 after weeks of sub-zero temperatures.....Pictures Say More than Words!

Fairway III above Westbank
Bare & Dry

Brookhaven Health Facility
Bare & Dry

Peachland Terraces
Bare & Wet

Orchard View Estates in Glenmore
Bare & Wet

Balmoral Retirement Community
Bare & Dry

Rona
Bare & Dry

Chances (Bingo)
Bare & Dry

Our AntiIce© product has:

- ⊗-Low Temp Rating of minus 45 degrees
- ⊗-Cuts the Snow & Ice Quicker than other products
- ⊗-Less Corrosive than Salt or Magnesium Chloride
- ⊗-Environmentally Safe (PNS approved)

Other contractors snow/anti-ice programs proved ineffective due to inferior products, inexperience, or are still incorporating traditional snow & ice control with sand.

See next pages for “Same Day - Different Results” pictures

SAME DAYS.....DIFFERENT RESULTS!

Pictures show roadways in a treacherous and hazardous state for 7 to 10 days AFTER the last snowfall. Re-application of inferior anti-ice product only worsened conditions in this cold weather!

Our competitors.....Pictures Say More than Words!

Bayview above Westbank
Snow/Icepack refreeze -6 to-10

Gelately Pointe
Snow/Ice refreeze- Sand required
