Novembers Snow Story 2008:

Warm wet weather without ground frost in most areas. 14 hours of continual wet snow. See website for weather details.

~~~~~~~~~~~~~~~~~~~

Friday, Nov28 : FIRST (real) SNOW of the year – Sub zero weather was predicted (incorrectly) throughout the night and Proactive AntiIce was applied to most properties. Snow start about 7am with no accumulation near lake and more as you travel to Rutland. Snow started heavier about 10 to 11am with still no accumulation by the lake but about 1 inch by orchard park. Pavement was well above freezing and slushy as snow continued to fall till around 3pm and tapering off into light rain in most areas. Accumulations on the Westside led to many slippery parking lots & roads and above the Airport area (Sunset Ranch) ended up with between 3 & 4 inches on some driveways. Generally most properties had slushed off by late Friday night without worries of refreezing.
